

Dollar cost averaging program enrollment

Important information

Use this form to enroll in the dollar cost averaging (DCA) program for your variable annuity. The DCA program enables you to preauthorize periodic transfers among investment options. If your annuity offers a Market Value Adjusted Account, you may not dollar cost average to or from any of the Market Value Adjusted Accounts.

- A separate form must be completed for requests on any additional contracts.
- This form can be used for the following products: Accommodator, Independence, Declaration, Patriot, Revolution, and Wealthbuilder variable annuities.
- You may terminate this program or change your investment allocations or the frequency of the DCA transfers anytime by notifying John Hancock.
- This program will automatically stop upon completion of the duration you choose or upon depletion of the source investment option.
- If your contract is a Revolution II, you must be invested in the Guaranteed Interest Account to elect an interest sweep DCA.
- If you are selecting the high yield DCA program and the full check amount is not invested in this program, the remaining funds will be applied as indicated in your current allocations.
- Participation in multiple investment programs may conflict with the intended results.
- Please refer to your variable annuity contract for trade restrictions and limitations.
